

Pro-Stitcher DESIGNER™

Updates March 2026

When you open Pro-Stitcher Designer, it will look different. If you are connected to the internet, It will welcome you with your name.

It will show small icons of your recent files.

The top icons are in a little different order.

The house icon brings you to the opening page.

Undo/redo are always present

File has moved over a little to the right.

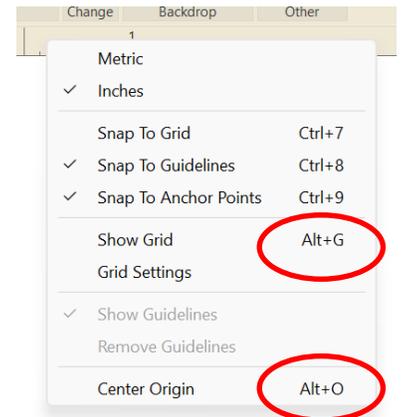

Pro-Stitcher DESIGNER™

Updates March 2026

Here are some of the changes for Designer:

There are 3 new hot keys:

Center Origin	Alt+O
Show/hide Grid	Alt+G
Show/hide Navigator	Alt+N

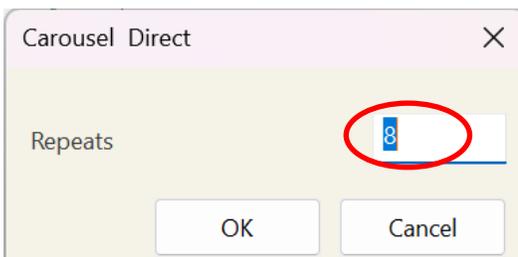

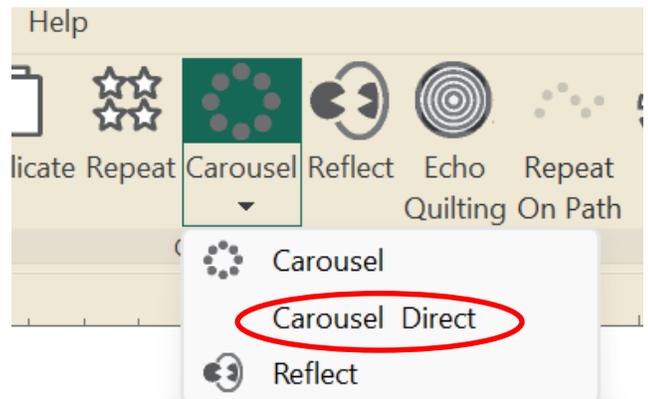

Scroll with mouse to zoom in/out in the pop up for Carousel and Repeat

Carousel Direct:

Pick a repeatable design.

If you click the small arrow beneath the word Carousel then click Carousel direct, another pop up appears.

It will ask how many repeats.

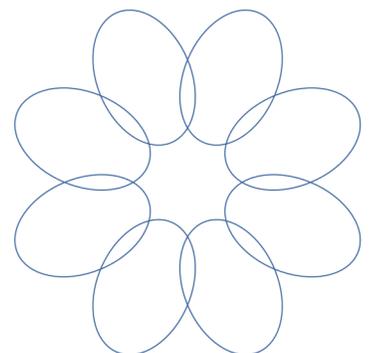

Change to what you want.

It will then auto connect the designs. It must be a repeatable design.

Then right click, utility, connect to finish.

Play with this as this is REALLY COOL.

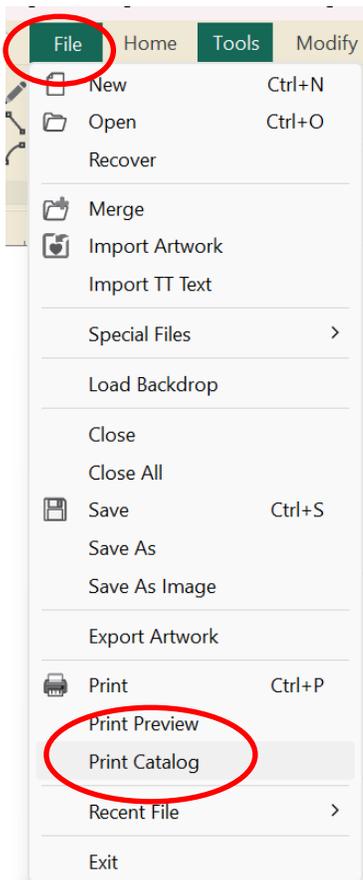

Pro-Stitcher DESIGNER™

Updates March 2026

One more great change is to the printing of a catalog of designs.

In the past this has been a faint line that was hard to read.

Go to File, print catalog.

This pop up appears:

Choose the folder you want to print by clicking the 3 dots at the top.

Make sure you have Realistic Icons clicked. This will create a bolder line while printing.
