

Pro-Stitcher®

Open a Design on a USB

1. Insert a usb into one of the usb ports in the distribution box behind your Pro-Stitcher tablet OR if you have an HQ Infinity, place it in one of the usb ports on the left side of your machine.
2. Select **File Tab>Design>Open**

3. On the left of the screen, collapse the C: drive by tapping the caret.

4. Select the D drive. Tap the caret to expand the drive and see the contents.

5. The design on your usb will show up in the preview screen to right so you can select the design you'd like to open.
6. Tap the design to select then tap Open in the bottom right corner.
