

Rotate a design using 2 Point Rotation to place in a sashing on an angle.

1. Select design

- Select **File** tab.

- Press **Design**.

- Press **Open**.
- Select **Designs\PS Designs\ Tutorial Designs\Leaves with Spines**

2. Create an area

- Select **Area** tab.

- Move machine to a corner of the sashing on the quilt.
- Press **Multi-Point**.

- Continue moving the machine and pressing **Multi-Point** at the other three corners of the sashing block.
- There should be four points for the area.

-

- The area now appears as a pink rectangle.
- Press **Refresh** in the status bar at the bottom of the screen. The area, design and crosshairs will be visible in the workspace.

Note: The Leaves with Spines design has been repeated two times to fit in the 1.4 x 9.9 area.

3. Rotate design

- Select **Modify** tab.

- Press **Rotate**.
- Move the crosshairs to the top left corner of the sashing.

- Press **2 Point** in the sidebar on the right side of the screen.

- Move crosshairs to the top right corner.

- Press **End** in the sidebar.

- The design will automatically rotate to the angle of the area.

- Notice the angle in the box on the sidebar.
