

Follow these steps to set up an edge to edge design inside a border.

Select design.

- Select **File** tab.
- Press **Design**.
- Press **Open**.
- Select **1-PS Designs/Continuous Line/Flowers on Parade**.

Create Quilt Area.

- Select **Area** tab.

- Move machine to the top left corner of the inside of the border.

- Press **2 Corner**.

- In the sidebar, enter the measurements of the inside section of the quilt.

Repeat Design.

- Select **Repeat** tab.

In the sidebar, select **Fill**, then use the + and - buttons to overfill the area. Also, use the gap - button under Vertical to bring the rows closer together. The design should overfill the area by at least a few inches on each side.

- **Baseline.**

- Save your design. Select **File** tab.
- Press **Save**.
- From the menu select **Workspace**.
- In the new window, enter a name, then press **Save**.

Create Area for Throat Space.

- Select **Area** tab.

- Select **Clear**.

- Move machine to the top left corner of the inside of the border.

- Press **Multi-Point**.

- Move the machine a few inches to the right, and press **Multi-Point** again. Continue across the top, move down the right side, back across the bottom, then back up the left side. Be precise with placing these points.

Crop Design.

- Select **Area** tab.

- Press **Crop**.

- In sidebar, select **Outside** and **Edges**.

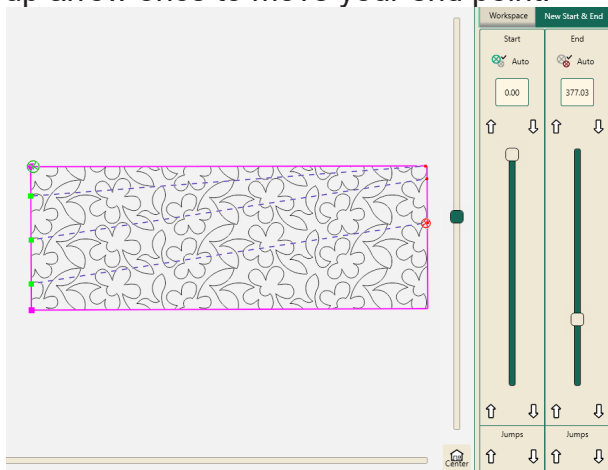

- **Do not baseline.**

Move your stop point.

- Looking carefully at your design, decide how many complete rows can be quilted within your throat space. In this example, three rows can be quilted.

- Select **New Start & End**.
- In the sidebar, there are two columns: Start & End. In the very bottom of the End column, under the word jumps, press the up arrow once to move your end point.

Stitch Design.

- Select **Pro-Stitcher** tab.

- Press **Quilt**.
- In the sidebar, select options.

- Press **Run**.
- Verify Settings window will load.
- Make sure your needle is up.

- Press **Proceed**.
- The machine will take one stitch and pause.
- Pull up your bobbin thread.
- Holding onto the bobbin and top thread,

press **Resume**.

- Stitch out all COMPLETE rows.

Advance the Quilt.

- Select **Area** tab.
- Select **Clear**.
- Because the design was not baselined after cropping, the design will revert to the original size.
- Advance the quilt using the **Drag & Drop method** (please see the tutorial title Edge to Edge with Drag & Drop) or your other preferred method.

From this point, repeat steps Create Area for Throat Space, Crop Design, Stitch Design and Advance the Quilt to finish the quilting.
