

How to Install Pro-Stitcher Designer on a Laptop, PC, or Tablet with an Internet Connection

1. Before starting the installation, you must be logged on as the Administrator on your computer.

This means that if you share the computer with someone else and have separate login ID's, your ID must be the one named Administrator and allowed to install software on the computer.

2. Close all open programs.

We suggest you disable your security software for the duration of the installation because anti-virus and anti-spam software can prevent installation. Please contact your security software provider to learn how to disable it.

3. To install the Pro-Stitcher Designer software, there are two options.

- a) Option 1: To install from a USB, insert the USB drive into your computer. In File Explorer, select the PSDesigner USB. Double click on the file PSDSet-up to launch installation.
- b) Option 2: After purchasing *Pro-Stitcher Designer* from www.prostitcher.com, click on the link to begin downloading the program.

4. The Pro-Stitcher Designer InstallShield Wizard screen will open on your screen.

Click [Next](#).

5. A License Agreement will load.

Please read the license carefully, then select "I accept the terms in the license agreement" and click [Next](#).

6. The Ready to Install screen will load. Click **Install** to begin the software installation.

7. The Installing Pro-Stitcher Designer screen will load.

8. When the InstallShield Wizard is finished installing, click **Finish** on the final screen.

A program / software icon will automatically be added to the desk top.

9. On your desktop, double click on the **Pro-Stitcher Designer** icon to launch the program.
