

## New Start Point in a Design

- Press **Pause** button.

- Select **Pro-Stitcher** Tab.

- Press **New Start & End**.

- In the sidebar, touch **Auto** under the word **Start** twice.

- Using the arrow at the top of the slide bar or the arrows at the top of the Start Column, move the green bullet back to where you want to start stitching again.

**Note:** Now you can unlock your motors and re-thread your machine or change your bobbin.

- Select **Tie off** on resume and **Pull up** on resume if desired, then press **Resume**.
